The following table lists the East German production plan for various types of foods for the fourth quarter of 1953. All amounts are in metric tons.

<u>Article</u>	<u>Amount</u>
Oatmeal (total)	11,615
Food products from barley	11,641
Shelled peas	4,181
Soup mixes	1,685
Baby foods	92
Semolina (Grits)	19,995
Food products made with wheat	195
TOTAL	47,500

✓ Comment. The true total should be 48,404. This discrepancy can be explained by the fact that the plan for oatmeal and grits was increased but the increases were not taken into account in computing the total. It is not known what the original figures for these two types of food products were.
